SJISA Bill Maschke Scholar-Athlete Award - GPA Calculator Instructions

Follow the instructions outlined below to complete the GPA calculator using the NISCA weighting scale. You will need the form on the reverse side of these instructions and the applicant's official transcript.

1. Begin by looking at the transcript and marking classes that fall under the five core subjects, listed below. List these in the appropriate school year on the worksheet on p. 6 of the packet, along with an accounting of any advanced weighting of the course (Honors, AP, Accelerated, etc.). Highlight all advanced courses. Note: any courses taken in 8th grade are not to be considered in the calculation of the applicant's GPA.
 - a. Science
 - b. Mathematics
 - c. Social Studies
 - d. English
 - e. Foreign Language
2. Next, using the NISCA weighting scale, assign the proper point values for each course according to the grade earned. Consider 7th semester grades a full-year course when assigning points. You may need to adjust the letter grades if your school does not use a 10-point per letter grade scale. No extra points are given for a '+' grade. The NISCA point values are listed below in the table:

Grade	Semester Course		Full Year Course	
	Regular	Advanced	Regular	Advanced
A (90 - 100)	4 pts	4.5 pts	8 pts	9 pts
B (80 - 89)	3 pts	3.5 pts	6 pts	7 pts
C (70 - 79)	2 pts	2.5 pts	4 pts	5 pts
D (60 - 69)	1 pt	1.5 pts	2 pts	3 pts

3. To determine the GPA, add the total number of points earned on p. 6 of the packet. Divide that number by the total number of courses taken. Be sure to count each semester course as one course and each full-year course as two courses.
4. To finish, transfer the data from the worksheet to the application worksheet on p. 3 of the packet. Also, place the point value earned for each course next to the grade on the transcript. Don't forget to include an accounting of how your school's course weighting structure works.
