

January 28th Every Year:

NASA

- Day of Remembrance -

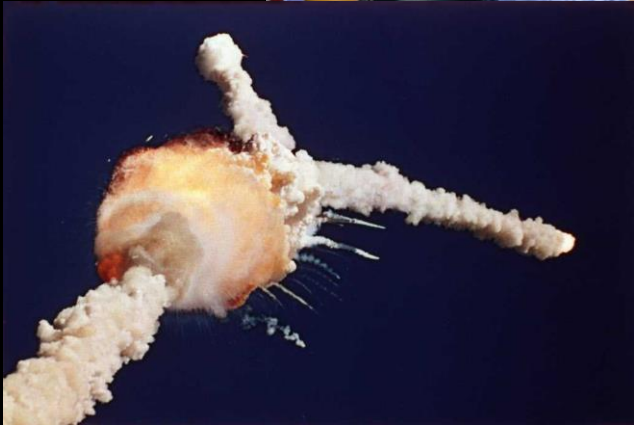

Exploring space will always be
difficult and dangerous.

January 27, 1967

January 28, 1986

February 1, 2003

Your task on your half sheet:

Name, describe and briefly

summarize the purpose of a minimum

of 5 scientific experiments that were

being conducted by Columbia's
STS-107 mission during the 16 days of
their mission.
