

**“First Look” at “From the Earth to the Moon”**

**Name**\_\_\_\_\_

**Date**\_\_\_\_\_ **Pd.**\_\_\_\_\_

1. What current events accompanied the first moon landing in 1969?
2. How much did the “Earth to Moon” series cost to produce? Where was it filmed?
3. What were the main sources of information that produced the accuracy in the series?
4. What duties did Apollo 15 Commander Dave Scott perform on the set?
5. Data:
  - Power of the Saturn V rocket-
  - Layers of insulation in the astronauts’ suits-
  - Temperature extremes it had to withstand-
  - Miles of wire in the Command Module-
  - Temperature the CM heat shield had to withstand upon reentry-
6. What genuine Apollo mission artifacts were used in the series?
7. How did they create the set for the moon scenes and the reduced gravity the astronauts experienced there?
