

Notes on "Mission to Mars"

With the end of our Mars unit coming soon, it's time to review for your upcoming take home Mars test using a feature length movie from 2000 called "Mission to Mars." By watching the movie closely (*and perhaps using our class fill-in-the-blank sheet on Mars as a resource*), **list and describe with a quality phrase a minimum of 10 elements in the movie's story that come from humanity's history of mythology, speculation, fascination, real science and exploration of our red neighbor that we have discussed over the past few weeks.**
